

THE 11th INTERNATIONAL CONFERENCE ON THE MENTAL LEXICON (2018)

PROCEEDINGS PAPERS

The following are the conference proceedings paper from The 11th International Conference on the Mental Lexicon 2018, held in Edmonton, Alberta. Each reflects a submission to the conference that was expanded into a four-page proceedings paper. The document includes all of the proceedings papers cited in APA style with direct object identifiers linking to each paper. We thank all the authors and attendees. We also wish to thank the reviewers for their contribution to the quality of the proceedings papers. We hope you find these informative and helpful in your future research.

The MenLex2018 Conference Proceedings Committee:

Filip Nenadić, Yoichi Mukai, Hamad Al-Azary, Alexander Taikh, Juhani Järvikivi, and Benjamin V. Tucker

Rodríguez-Lázaro, A. L., Arias-Trejo, N., Angulo-Chavira, A. Q., & Signoret Dorcasberro, A. (2019).

Following the path of lexical access in bilinguals (Spanish-English) through eye-tracking.

Proceedings of The 11th International Conference on the Mental Lexicon, 1, e032.
